

Status Screening Lungekræft

DLCG Årsmøde 2023

Zaigham Saghir

Formand DLCG Screeningsgruppe

Lungemedicinsk Sektion, Herlev-Gentofte Hospital

Forslag

Indsendt officielt til SST 1. februar 2021 (963 dage)

Systematisk årlig screening af
højrisiko grupper med lavdosis CT
inklusive ryggestopsintervention

Pilotfase inden evt. national udrulning

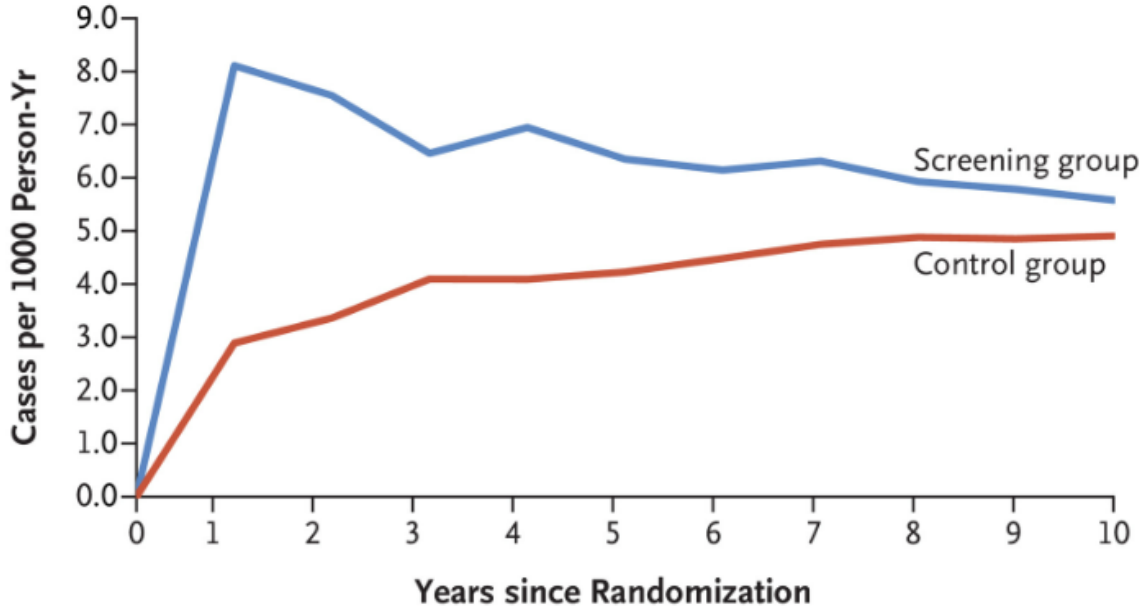

55-74 år

Rygere og tidligere storrygere

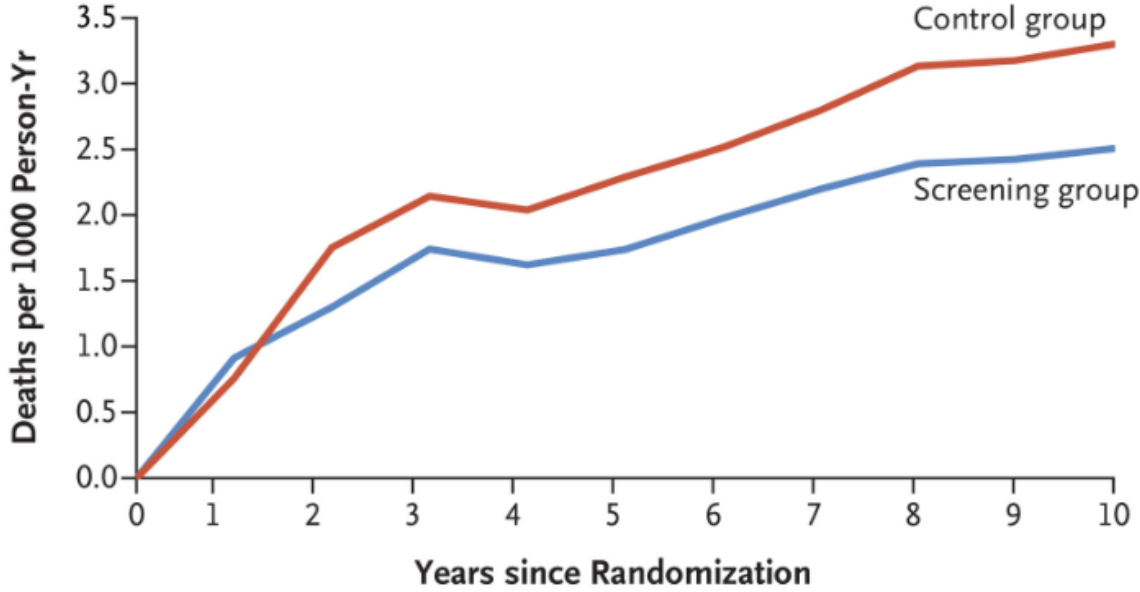

NELSON

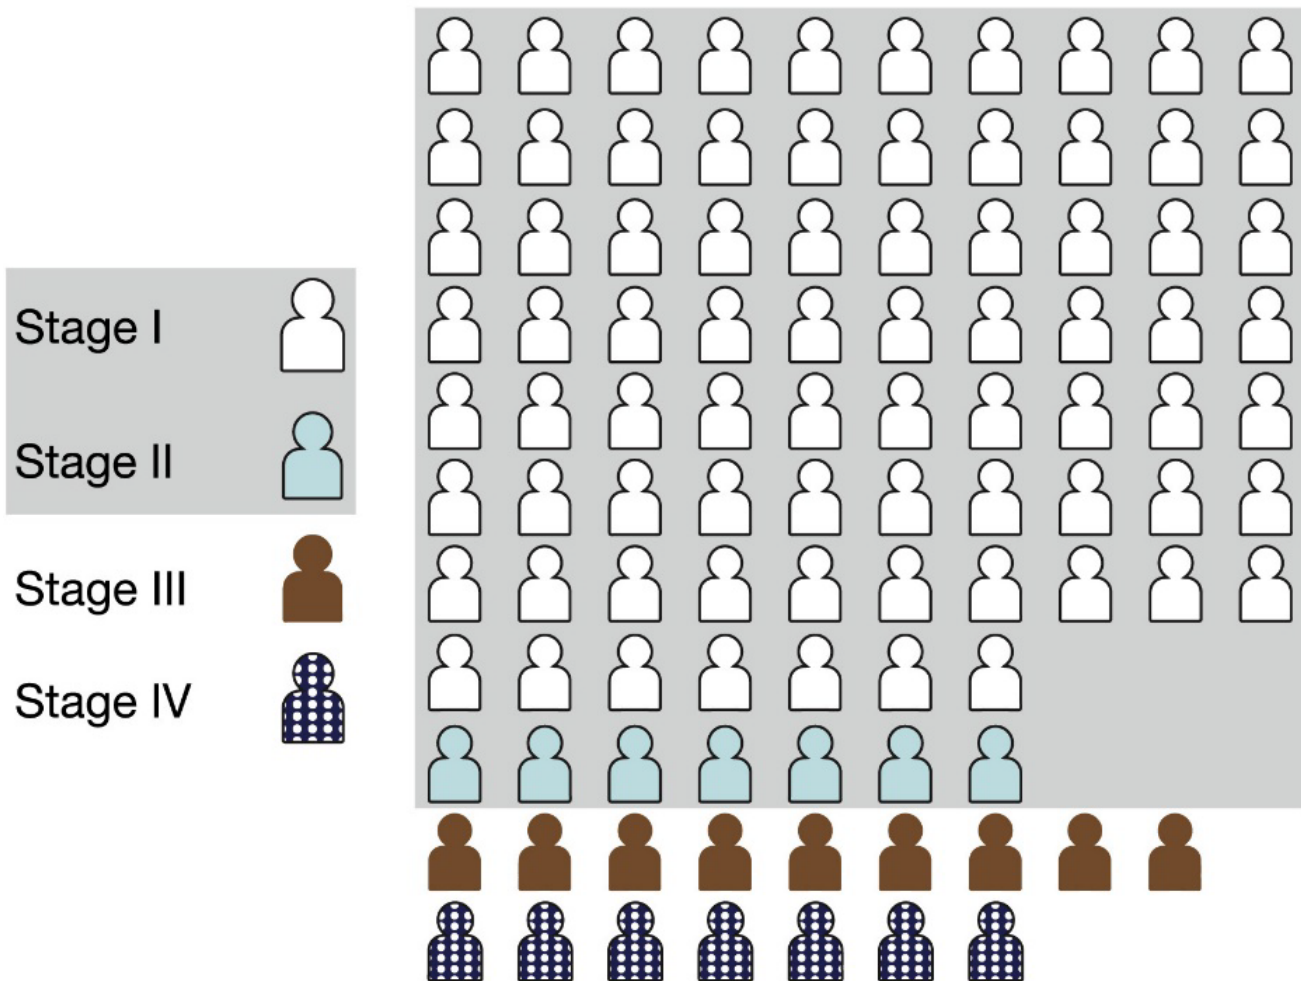

A Lung-Cancer Incidence

B Lung-Cancer Mortality

D Diagnosed in a lung screening program

E Diagnosed outside of lung screening programs

Europe's Beating Cancer Plan A new EU approach to cancer screening

20 SEPTEMBER 2022
#EUCancerPlan #HealthUnion

WHAT ARE THE NEW EU RECOMMENDATIONS?

Extending access to targeted cancer screening for breast, colorectal and cervical cancers along with a step-by-step approach to introducing prostate, lung and gastric cancer testing.

		Triage testing for COLORECTAL CANCER in people aged 50 – 74 through faecal immunochemical testing (FIT) to determine follow-up via endoscopy/colonoscopy
	LUNG CANCER testing for current heavy and ex-smokers aged 50 – 75	In places with high GASTRIC CANCER incidence and death rates, screening for Helicobacter pylori and surveillance of precancerous stomach lesions

UK NSC recommends introduction of targeted lung cancer screening

Mike Harris, 29 September 2022 - General

Sundhedsministeren giver grønt lys til at afprøve lungekræftscreening i Danmark

De danske lungelæger er begejstrede over udsigten til at komme i gang med at teste screening.

Sundhedsminister Sophie Løhde vil sammen med regeringen finde de 30 millioner, et pilotprojekt vil koste. Derefter skal der tages stilling til, om screening nationalt er en god idé. (Foto: © liselotte sabroe, Ritzau Scanpix)

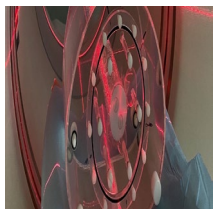

Screeningsmetode i debat om screening for lungekræft

...lar til at undersøge muligheden for at... lungekræft hos rygere, men flere problemer

Lungekræft

FORMÅL

At indsamle viden om og erfaringer med de organisatoriske og ressourcemæssige udfordringer, der knytter sig til systematisk at screene for lungekræft i en dansk kontekst. Viden og erfaringer, der skal bidrage til vurderingen af om screening for lungekræft bør indføres som et nationalt screeningsprogram.
